PROFESSIONAL SUMMARY

Unity Software Engineer with 4+ years of experience building immersive training & gaming solutions for enterprise clients. I architect, develop, debug, document, and deploy performant unity applications, with a strong understanding of product lifecycles. I have developed & delivered 10+ projects as an XR Developer & Associate Project Delivery Manager. I specialize in rapid prototyping and simulation across various platforms.

EXPERIENCE

Edgeforce Solutions Pvt. Ltd.

Apr. 2023 – May 2026

XR Software Developer & Associate Project Delivery Manager

Hyderabad, India

- **XR Development:** Built and deployed interactive XR training simulations in Unity, which has reduced client training time by 40%.
- **Software Engineering:** Architected 10+ XR applications using C# and SOLID principles; implemented Web-Socket communication with latency below **40 ms** and reduced code duplication by **30%**.
- **Optimization and Testing:** Profiled, tested, and optimized applications for Meta Quest devices, increasing frame rates from 45–60 FPS to 72–90+ FPS.
- **Deployment and Collaboration:** Translated stakeholder requirements into technical solutions, documented systems, and deployed training labs across various military locations.

Veniso Solutions

Feb. 2022 – Mar. 2023

Game Developer

Hyderabad, India

- Developed UI, scoring systems, and gameplay mechanics for Unity 3D games; supported gameplay testing, debugging, and performance optimization.
- **Projects:** Super Hero Cube, Infinite Flight, and Bollywood Award Rush.

SKILLS

- **Languages:** C#, C++, Python.
- **Backend, Data, and Networking:** Node.js, SQLite, REST APIs, WebSocket, TCP/IP.
- **Hardware Communication:** Serial data communication with ESP32, Arduino, and custom embedded boards.
- **XR Technologies:** Meta XR SDK, OpenXR, XR Interaction Toolkit, SteamVR, SenseGloves.
- **Unity Development:** DOTS & ECS, gameplay systems, XR interactions, UI/UX, physics, animation, lighting, camera control, materials, scene setup, profiling, and optimization.
- **Architecture and Quality:** SOLID, DRY, design patterns, state machines, testing, and debugging.
- **Tools and Collaboration:** Git, CI/CD, third-party SDK & plugin integration, Agile practices, requirements analysis, technical specifications, documentation, and cross-functional collaboration.

PROJECTS

- **UGV Simulator:** Developed an in-house simulator for Edgeforce Solutions' Predator MDX UGV, integrating custom and DynaLog Ground Control Station (GCS) systems with real-time control inputs.
- **Command Center:** Led development of real-time Meta Quest 3 passthrough streaming for HAL using Unity and WebSocket, integrating frontend and backend services.
- **iDeX Navy Mixed-Reality AI Virtual Assistant:** Integrated and deployed local AI models within a mixed-reality application supporting voice and text interaction with animated responses.
- **ULSB MK II and ALS Maintenance:** Implemented maintenance and training simulations with custom hand-tracking interactions using Unity and the Meta XR SDK.
- **Tank T-90 and INSAS Gun Training:** Developed assembly and disassembly training simulations with custom interactions, exploded views, and structured data collection.
- **Welding and Painting Simulators:** Led development and delivery of OpenXR-based training simulations with interactive tools, guided workflows, scoring systems, and complete lab setup.

EDUCATION

Jawaharlal Nehru Architecture and Fine Arts University

Aug. 2018 – Aug. 2022

B.Tech in Computer Science and Game Development

Hyderabad, India

AWARDS AND RECOGNITION

- **Employee of the Year (2023–24)**, Edgeforce Solutions Pvt. Ltd.
- **Client Appreciation**, Indian Army
- **Appreciation in the Field of IT (2024–25)**, Edgeforce Solutions Pvt. Ltd.
